

Legislator Education Survey 2010

Response for: andrea4ld30@gmail.com

Completed: 6/22/2010 - 9:04 AM EDT

- 1 In an effort to balance our state budget, legislators have recently reduced Arizona's K-12 and university/community school budgets by more than \$2 billion during the past two years. During this next session, legislators still need to address the structural budget deficit that remains. Which of the following best describes your approach to balancing the budget?

Answer

Enact further cuts to K-12 and higher education funding as they make up a large share of the overall budget.

Stabilize funding to education at existing levels until our economy recovers.

Find ways to recover the \$2.2 billion that was cut. Examine how state revenues are spent and whether the state collects enough revenue to meet its needs.

Comment: The way to a secure our future is the growth of high technology and renewable energy jobs. I contend that you could eliminate the corporate taxes and the clean, sustainable, high paying jobs we want to come to Arizona, will not come unless we support public education at all levels.

- 2 Do you support efforts to readdress Arizona's tax structure to alleviate the reliance on fluctuating sales tax?

Answer

Yes

No

Comment: When asked about my favorite book, I refer to Dr. Alberta Charney's article "The Budget Crisis was Predictable." <http://uanews.org/node/7586>. I often paraphrase the article by saying probable and planned, rather than predictable. The systemic defunding of public education motivated me to run for Legislative District 30 Representative.

- 3 Arizona's current budget was devised using a series of cuts, borrowing, financial deferrals and the voter-approved temporary sales tax increase. Which of the following fiscal measures would you consider supporting this year? (Please check all that apply.)

Answer

An effort to close existing tax loopholes

Increase personal income tax

Enact a flat tax on corporate/individual income

Increase property tax
<input checked="" type="checkbox"/> Eliminate tax credits (please specify)
Expand the sales tax to services
End tax exempt status for mining, etc.
Simplify the state tax code
Corporate tax cuts
Ensure corporate tax parity (large companies to pay same share as small businesses; tax exemption via out-of-state holding companies prohibited, etc.)
I think the only effective budget solution would be to introduce further tax cuts.
I think our current tax structure is adequate and we just need to wait until the economy rebounds.
Other

Comment: My background as a Certified Public Accountant, a tax accountant as well as a former educator, gives me a unique perspective and skill set. I would eliminate tax credits that violate the Arizona Constitution and loopholes for big corporations and the rich. For the sake of a sound future for Arizona, all should pay their fair share.

4 **A number of national surveys rank Arizona among the last in K-12 per-pupil funding. Arizona invests \$61 less per student than it did more than 20 years ago, according to the American Legislative Exchange Council. What do you think of this level of investment?**

Answer
Arizona spends too much on K-12 education. We need to enact further cuts.
This is an adequate level of investment. I do not think we need to invest more in K-12 funding.
Although I do not think this funding is adequate, I do not think we can increase funding for K-12 education at this time.
<input checked="" type="checkbox"/> It is embarrassing to be among the last in the nation in K-12 education funding. As a legislator, I will work this fiscal year (2010-2011) to increase funding for K-12 public schools.

Comment: It violates the Arizona Constitution. Children and young people are only part of our population, but they are 100% of our future. Our lack of support for public education at all levels keeps new businesses from coming to Arizona.

5 **Each year, more than \$60 million in Arizona taxpayer dollars are directed to School Tuition Organizations (STOs) for private school tuition through the tax credit program. What do you think about the current private school tax credit program? (Please check all that apply.)**

Answer
More tax dollars should be allocated to expand the private school tuition program.
The private school tuition program should be maintained as-is.
The amount of tax dollars allocated to the private school tuition tax credit program should be reduced.
<input checked="" type="checkbox"/> The private school tax credit program should be repealed.
<input checked="" type="checkbox"/> The 10% processing fee that STOs are allowed to keep from donations for expenses should be reduced to a lower percentage. (Processing fees in Florida are capped at 3%.)
<input checked="" type="checkbox"/> There should be income limits on the families who benefit from the private school tax credit program. The original intent of the program was to provide access to private schools for poor children.
I think any Arizona family should be able to take advantage of the tax-funded tuition benefits.
<input checked="" type="checkbox"/> I don't believe we should be using tax dollars for private school tuition assistance.

Comment: I have been challenging the LD30 delegation on this issue for nearly a year. How do you reconcile being fiscally conservative with this program with little accountability of our tax dollars? In my opinion, in addition to being a violation of the Arizona Constitution, many of the STO are scams that have not been adequately monitored. I believe in school choice but not with our tax dollars. This is often a violation of the separation of church and state. Most Arizonan are unaware of the abuses.

6 **Do you believe reform is needed in our public education system? If so, which reforms do you support? (Please check all that apply.)**

Answer
No, reform is not needed.
Yes, reform is needed.
Yes, reform is needed but we need to establish adequate funding first.
I support the participation in a national standards program, i.e. NAEP.
I support increased charter school funding.
I support more teacher accountability.
<input checked="" type="checkbox"/> I support the Common Core Standards created by the National Governors' Association and the state superintendents of education.
I support linking teacher pay to student test scores.
I support moving quickly to shut down failing schools.
I support creating more charter schools.
<input checked="" type="checkbox"/> I support restructuring the "equalized funding" formula

Comment: More testing is not the answer. Testing companies have reaped financial gains with little benefit to the children and young people. We must replicate excellence and eliminate programs that do not work. Reform might not be the right word but rather an honest evaluation of what works and what does not.

7 **Some argue that we should move away from traditional public schools and transition to a system with more students attending state funded, privately-run charter schools and private schools with the aid of tax credits and/or vouchers. Do you support this plan?**

Answer
Yes
<input checked="" type="checkbox"/> No

8 **This year, legislators referred to voters a ballot measure to repeal First Things First, an early childhood education program with a dedicated funding source approved by voters in 2006. What do you support?**

Answer
First Things First funding should be repealed.
<input checked="" type="checkbox"/> First Things First funding should be maintained in accordance with the original voter mandate.

Comment: Taking tobacco tax money, literally out of the mouths of babes, is immoral. Investment in early childhood that gets children ready for kindergarten saves us money in the long run.

9 **Arizona currently has some of the largest K-12 classroom sizes in the nation. Please check the statements you agree with below. (Please check all that apply.)**

Answer	
<input type="checkbox"/>	Classroom size isn't a crucial factor for student success--many other factors are much more important and we should focus our priorities elsewhere.
<input type="checkbox"/>	I think it would be more efficient if we increased classroom size along with teacher pay. This would attract better teachers and decrease the cost of running the school.
<input type="checkbox"/>	I think classroom size is an important factor for student success, but I don't think we can currently afford to increase funding to pay for the additional teachers and/or school facilities.
<input checked="" type="checkbox"/>	Classroom size is one of the most important factors for student success--we should be working to reduce class size as one of our top priorities.
<input type="checkbox"/>	If parents believe that classroom size is important for their child, they should consider enrolling their children in a private school with a classroom enrollment cap.

Comment: Class size has more of an effect on lower grades especially K-5. I would set that as the first priority.

10 **Arizona has one of the highest high school drop-out rates in the country. In the last budget, all state aid for adult GED (General Education Diploma) funding was eliminated. Please check the statement you agree with below.**

Answer	
<input type="checkbox"/>	GEDs should be funded by individuals.
<input type="checkbox"/>	The state should provide funding for GED programs.
<input checked="" type="checkbox"/>	I will work to restore funding for adult GED services.

Comment: More than 800,000 people do not have a high school diploma or GED in Arizona. The elimination of the funding is short sighted and will cost more in the long run with increased health, law enforcement, correctional and social services expenditures.

11 **The Arizona Constitution has many sections impacting the state budget and education. If elected, which of the following articles do you most identify with? (Please check all that apply.)**

Answer	
<input type="checkbox"/>	The legislature shall provide by law for an annual tax sufficient, with other sources of revenue, to defray the necessary ordinary expenses of the state for each fiscal year. (Article IX, Section 3)
<input checked="" type="checkbox"/>	No tax shall be laid or appropriation of public money made in aid of any church, or private or sectarian school, or any public service corporation. (Article IX, Section 10)
<input checked="" type="checkbox"/>	The university and all other state educational institutions shall be open to students of both sexes, and the instruction shall be nearly as free as possible. (Article XI, Section 6: paragraph one)
<input checked="" type="checkbox"/>	The legislature shall make appropriations, to be met by taxation, as shall insure the proper maintenance of all state educational institutions & shall make such special appropriations as shall provide for their development & improvement. (Article XI, Sec10)

12

If you have children, what type of school(s) did they/do they attend? (Please check all that apply.)

Answer
<input type="checkbox"/> Traditional Public School
<input type="checkbox"/> Charter School
<input checked="" type="checkbox"/> Private School
<input type="checkbox"/> Home School
<input checked="" type="checkbox"/> University/Community College/Higher Education
<input type="checkbox"/> N/A I have no children.
