

Legislator Education Survey 2010

Response for: kono@zekes.com

Completed: 7/16/2010 - 2:22 PM EDT

1 In an effort to balance our state budget, legislators have recently reduced Arizona's K-12 and university/community school budgets by more than \$2 billion during the past two years. During this next session, legislators still need to address the structural budget deficit that remains. Which of the following best describes your approach to balancing the budget?

Answer	
<input type="checkbox"/>	Enact further cuts to K-12 and higher education funding as they make up a large share of the overall budget.
<input checked="" type="checkbox"/>	Stabilize funding to education at existing levels until our economy recovers.
<input type="checkbox"/>	Find ways to recover the \$2.2 billion that was cut. Examine how state revenues are spent and whether the state collects enough revenue to meet its needs.

Comment: The current funding levels have caused some major damage to our education system. The current cost of a higher education is out of the reach of most families. The current trend is that our high schools graduates will in the end have less education than their parents are alarming and must be reversed.

2 Do you support efforts to readdress Arizona's tax structure to alleviate the reliance on a fluctuating sales tax?

Answer	
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No

Comment: This is a majority priority for the state. It must be done carefully but changes must be made to help level out the ups and downs of the current budget.

3 Arizona's current budget was devised using a series of cuts, borrowing, financial deferrals and the voter-approved temporary sales tax increase. Which of the following fiscal measures would you consider supporting this year? (Please check all that apply.)

Answer	
<input checked="" type="checkbox"/>	An effort to close existing tax loopholes
	Increase personal income tax
	Enact a flat tax on corporate/individual income
	Increase property tax
<input checked="" type="checkbox"/>	Eliminate tax credits (please specify)
	Expand the sales tax to services
	End tax exempt status for mining, etc.
<input checked="" type="checkbox"/>	Simplify the state tax code
	Corporate tax cuts
	Ensure corporate tax parity (large companies to pay same share as small businesses; tax exemption via out-of-state holding companies prohibited, etc.)
	I think the only effective budget solution would be to introduce further tax cuts.
	I think our current tax structure is adequate and we just need to wait until the economy rebounds.
	Other

Comment: AZ has borrowed \$3.8 billion in 20 and 30 year notes and rolled over another \$2 billion. All this is doing is postponing what must be done-a restructure of our taxes. This must be done to provide the funds necessary to provide quality education to our citizens.

4 A number of national surveys rank Arizona among the last in K-12 per-pupil funding. Arizona invests \$61 less per student than it did more than 20 years ago, according to the American Legislative Exchange Council. What do you think of this level of investment?

Answer	
	Arizona spends too much on K-12 education. We need to enact further cuts.
	This is an adequate level of investment. I do not think we need to invest more in K-12 funding.
<input checked="" type="checkbox"/>	Although I do not think this funding is adequate, I do not think we can increase funding for K-12 education at this time.
	It is embarrassing to be among the last in the nation in K-12 education funding. As a legislator, I will work this fiscal year (2010-2011) to increase funding for K-12 public schools.

Comment: Increasing spending for education needs to be addressed and is a major concern. The current level of spending cannot be further reduced. Education must be a priority for the state and addressing this issue needs to be done even with the current financial problems the state is facing.

5 Each year, more than \$60 million in Arizona taxpayer dollars are directed to School Tuition Organizations (STOs) for private school tuition through the tax credit program. What do you think about the current private school tax credit program? (Please check all that apply.)

Answer
More tax dollars should be allocated to expand the private school tuition program.
The private school tuition program should be maintained as-is.
<input checked="" type="checkbox"/> The amount of tax dollars allocated to the private school tuition tax credit program should be reduced.
The private school tax credit program should be repealed.
The 10% processing fee that STOs are allowed to keep from donations for expenses should be reduced to a lower percentage. (Processing fees in Florida are capped at 3%.)
There should be income limits on the families who benefit from the private school tax credit program. The original intent of the program was to provide access to private schools for poor children.
I think any Arizona family should be able to take advantage of the tax-funded tuition benefits.
I don't believe we should be using tax dollars for private school tuition assistance.

Comment: STOs do provide an educational opportunity for many but the current practice is out of hand and changes must be made to the program. I am very concerned with current legislators who personal benefit from STO's running bills to increase the program during this very difficult time for the state.

6 Do you believe reform is needed in our public education system? If so, which reforms do you support? (Please check all that apply.)

Answer
No, reform is not needed.
Yes, reform is needed.
<input checked="" type="checkbox"/> Yes, reform is needed but we need to establish adequate funding first.
I support the participation in a national standards program, i.e. NAEP.
<input checked="" type="checkbox"/> I support increased charter school funding.
<input checked="" type="checkbox"/> I support more teacher accountability.
<input checked="" type="checkbox"/> I support the Common Core Standards created by the National Governors' Association and the state superintendents of education.
I support linking teacher pay to student test scores.
I support moving quickly to shut down failing schools.
I support creating more charter schools.
I support restructuring the "equalized funding" formula

7 Some argue that we should move away from traditional public schools and transition to a system with more students attending state funded, privately-run charter schools and private schools with the aid of tax credits and/or vouchers. Do you support this plan?

Answer

Yes
<input checked="" type="checkbox"/> No

Comment: Traditional public schools are the backbone of our education system and must be maintained.

8 This year, legislators referred to voters a ballot measure to repeal First Things First, an early childhood education program with a dedicated funding source approved by voters in 2006. What do you support?

Answer
First Things First funding should be repealed.
First Things First funding should be maintained in accordance with the original voter mandate.

Comment: There should be a balance of both type of schools but traditional schools are the backbone of our education system and they must be maintained.

9 Arizona currently has some of the largest K-12 classroom sizes in the nation. Please check the statements you agree with below. (Please check all that apply.)

Answer
<input type="checkbox"/> Classroom size isn't a crucial factor for student success--many other factors are much more important and we should focus our priorities elsewhere.
<input type="checkbox"/> I think it would be more efficient if we increased classroom size along with teacher pay. This would attract better teachers and decrease the cost of running the school.
<input type="checkbox"/> I think classroom size is an important factor for student success, but I don't think we can currently afford to increase funding to pay for the additional teachers and/or school facilities.
<input checked="" type="checkbox"/> Classroom size is one of the most important factors for student success--we should be working to reduce class size as one of our top priorities.
<input type="checkbox"/> If parents believe that classroom size is important for their child, they should consider enrolling their children in a private school with a classroom enrollment cap.

Comment: Classroom size must be addressed now. Large classroom size is a deterrent to quality education.

10 Arizona has one of the highest high school drop-out rates in the country. In the last budget, all state aid for adult GED (General Education Diploma) funding was eliminated. Please check the statement you agree with below.

Answer
<input type="checkbox"/> GEDs should be funded by individuals.
<input checked="" type="checkbox"/> The state should provide funding for GED programs.

I will work to restore funding for adult GED services.

Comment: GED programs are very important for many people and the state MUST fund the programs.

11 The Arizona Constitution has many sections impacting the state budget and education. If elected, which of the following articles do you most identify with? (Please check all that apply.)

Answer
<input checked="" type="checkbox"/> The legislature shall provide by law for an annual tax sufficient, with other sources of revenue, to defray the necessary ordinary expenses of the state for each fiscal year. (Article IX, Section 3)
No tax shall be laid or appropriation of public money made in aid of any church, or private or sectarian school, or any public service corporation. (Article IX, Section 10)
<input checked="" type="checkbox"/> The university and all other state educational institutions shall be open to students of both sexes, and the instruction shall be nearly as free as possible. (Article XI, Section 6: paragraph one)
<input checked="" type="checkbox"/> The legislature shall make appropriations, to be met by taxation, as shall insure the proper maintenance of all state educational institutions & shall make such special appropriations as shall provide for their development & improvement. (Article XI, Sec10)

12 If you have children, what type of school(s) did they/do they attend? (Please check all that apply.)

Answer
<input checked="" type="checkbox"/> Traditional Public School
Charter School
Private School
Home School
University/Community College/Higher Education
N/A I have no children.

Comment: I do have children in school and they attend a traditional public school as does my grandchildren.
